MATCH REPORT

A very disappointing result on the weekend.

After a competitive first quarter against the Swans, we showed little work rate and composure going into our forward line, constantly kicking the ball long and allowing the Swans defenders to drop off in numbers and rebound the ball from our forward half. The result of this was an inability to convert our forward entries into scores, therefore only registering three goals nine for the game.

Conversely, the Swans were able to transition the ball with better execution and work rate, exposing a few of our deficiencies in that area.

We are under no illusion the weekends result is not acceptable and we need to respond this week at Brendale against a loaded Brisbane Lions team.
